

**TORINO AIRPORT, RECORD SUMMER SEASON  
THE NETWORK WITH THE MOST FLIGHTS EVER  
LAUNCHED ON 27 MARCH 2022: 81 ROUTES SERVED, 25 NEW INTERNATIONAL  
HOLIDAY FLIGHTS ABROAD AND MORE THAN 4 MILLION SEATS ON SALE**

- *In the 2022 Summer season (from 27 March to 29 October) Torino Airport will be connected to 63 national and international destinations.*
- *Number of seats offered increased by 43% compared to the pre-Covid summer season (2019)*
- *Lower prices due to high competition on a growing number of destinations and many new low-cost routes*
  - *Up to 61 flights per week to Sicily, 48 to Sardinia, 29 to Puglia*

*Caselle Torinese, 26 March 2022 – The record-breaking summer season for Torino Airport opens tomorrow, Sunday 27 March 2022.*

The Summer 2022 schedule includes a network of **81 routes, of which 53 international and 28 domestic**, operated by a total of 15 airlines. This is the **largest flight network ever** for the airport, from which a **total of 63 destinations will be served** throughout the summer, compared to the 50 served pre-summer 2019 (+26%).

There are many new entries in the programme, especially in the international segment: in addition to the consolidated leisure destinations at the seaside, there are European and non-European cities of art never before served, suitable for stays and city breaks.

The offer grows in particular in the international segment: 47 foreign destinations can be reached, compared to 30 in summer 2019 (+57%).

In the seasonal peak (August), the schedule provides for up to **408 weekly frequencies**, equal to +38% compared to those scheduled in the same period of 2019. **International flight frequencies** will reach a peak of **217**, an increase of +14% compared to Summer 2019; even more significant will be the increase in **domestic flight frequencies** to Southern Italy and the islands: in fact, **up to 182 weekly frequencies** will be operated compared to 103 in Summer 2019, equal to +77%.

**More than 4 million seats will be on sale** in the upcoming season, available at very attractive fares thanks to the high level of competition from several carriers operating on the same destination. This figure is more than 43% higher than in 2019, when just over 2.8 million seats were available.

The benefit to passengers of the high level of competition is particularly noticeable in destinations served by several airlines, such as Naples, served by four carriers, or Catania and Lamezia Terme, served by

three carriers: the presence of several airlines not only has a **positive effect on prices, but** also increases the choice of the day on which to fly and the most convenient times for passengers.

### Network news

On the **international** side, there are a total of **25 new routes** for Torino Airport's Summer 2022, with a wide choice for city breaks and holidays:
