

Prepaid Cards regulations - Torino Airport

Prepaid cards offer the possibility to buy a certain amount of parking hours in the Multi-storey car park without limitation of date and time and without the need to pay at the car park automatic cashiers.

By using the prepaid card, the holder authorizes SAGAT to withdraw from the expendable value of mentioned in the previous point the sum due for the use of the car parking, which is calculated according to the standard rate applicable at that point .

In case of insufficient credit, the customer is required to pay the balance due at the Infopoint.

The card is valid up until complete utilization of the available credit, as detectable by SAGAT's dedicated systems, and as a function of the progressive consumption.

The prepaid Card is for personal use only and cannot be transferred to third parties.

In case of loss the client must immediately report the Card as lost to the relevant Authorities, and contact a member of staff at the manned car park Infopoint, where the client's lost card will be blocked and replaced with a new one. The Card holder will be charged the cost of the replacement Card.

If your card is malfunctioning, it will be replaced free of charge at the manned car park Infopoint. If the malfunction is proven to be caused by incorrect custody or care of the card, the Card holder will be charged the cost of the replacement Card.

Access to the Airport car parking

- Drive up to the main entrance of the Airport multi-storey car park. Please do NOT use Telepass lanes to enter the car park
- Introduce your Card and please do NOT press for a ticket to gain access to the car park.
- Follow the directions to your car park
- On exiting the car park, proceed straight to the exit barrier and stop, introduce your Card to open the final barrier and exit, as it is NOT necessary to pay at the car park pay machines.
- In case of insufficient credit, please go to the Infopoint to integrate the due amount
